Because connections matter.

The New Choice in High Volume Mailing

The IS-6000 has set a new standard for mailing system productivity, operability and efficiency. Quadiant observed high-volume mailing system operators and listened to production mail center customers before designing it.

This next-generation mailing system delivers simple ergonomic operations, investment protection, cost savings, reliable production and maximum uptime. With access to a growing suite of services and apps to improve postal, parcel and related digital communication, it is clear the IS-6000 is your choice for high-volume mailing.

Productivity You Can Count On

Meeting the demands of your mail processing center can be tough. Whether you are adhering to time-critical deadlines or changes in your daily routine, the bottom line is the work needs to get done. You need a durable and reliable workhorse that is going to deliver.

With an overall weight of more than 200 lbs., the IS-6000 is always ready for the challenge. The IS-6000 has what it takes to maximize throughput including:

- A high capacity envelope feeder with reload on-the-fly capability
- Three speed choices up to 210, 260 or 300 lpm
- A dynamic scale that rapidly weighs and measures mail in-line
- Open and closed flat sealing capabilities
- A power conveyor stacker with a storage capacity ratio in sync with the feeder

A Better Way for Managing Mail and Shipping Costs

Quadiant's optional Enhanced Mailing & Shipping solution (EMS) can be fully integrated to provide extended mailing functionality and multi-carrier shipping from one centralized workspace. This IM[®]pb (Intelligent Mail[®] Package Barcode) compliant solution offers features such as address correction, rate shopping, scan and drop, work ahead and performance analysis reports. With EMS, you can increase productivity, reduce mistakes and costs, and manage your mailing and shipping activities in the mail center and across the organization.

Environmental Commitment

The IS-6000 carries Quadiant's Eco-Label which aims to provide a clear and consistent set of environmental performance criteria used in the design phase of our products.

How We Reduce Our Environmental Footprint:

- Quadiant limits the machine weight and the amount of raw materials used for production.
- The volume of our packaging is kept to a minimum and is 100% cardboard and recyclable.
- Packaging for the IS-6000 represents less than 20% of the total weight of the packed product.
- The user-friendly sleep mode helps reduce energy consumption.
- We develop our products to ensure a minimum recyclability rate of 75%.

The IS-6000 is compliant with environmental Regulations and ENERGY STAR

Investment Protection and Cost Savings

The advanced modular design allows you to configure a system where you only purchase the components, apps, and options that you need, eliminating overspending.

New ink and printing technology provide maximum return on your investment. Say good-bye to scheduled print head replacement. Each IS-6000 comes standard with a print head designed to last the life of the mailing system.

1. Weighing Platform

10, 30 or 70 lb. platforms handle even the heaviest parcels and over-sized packages. Add differential weighing to reduce manual processing and handling.

2. Full Keyboard

The added comfort of a full, integrated keyboard makes set up and mail processing a breeze.

3. 15" Color Touch Screen

Rotate, swivel and adjust your full color touch screen for optimal viewing, accessibility and comfort. Large, descriptive prompts and buttons make navigation simple.

4. Power Conveyor Stacker

Achieve maximum throughput by reducing the number of starts and stops when using a high capacity stacker.

8. Mixed Mail Feeder

Eliminate hand sorting by size or weight. Process nested or non-nested envelopes and postcards with ease.

6. Ergonomic Workstation

Designed especially for the IS-6000, this workstation offers an adjustable shelf and dual locking doors.

5. Dynamic Scale

Accurately weighs, rates and classifies mail at speeds up to 140 lpm. Reliable sensors detect mail dimensions to ensure conformance to USPS® Shape-Based Pricing requirements.

7. Sealing System

Dual-pump, jet-spray sealing system with filter ensures a quality tip-to-tip envelope seal. Five levels of spray adjustments are standard with each system.

Specifications

Speed (batch processing)	Up to 300 lpm
Dynamic weighing speed	Up to 160 lpm / 180 postcards
Large 15" control panel	Color touch screen
Envelope thickness	Up to 0.8"
Label dispenser	Internal standard
Preset jobs	15
Ad slogans	8 standard
Personalized text messages	10 custom
Adjustable water flow for sealer	5 levels standard
Accounts/departments	100 standard
Sealing system	Dual pump, jet spray
Postal mail class inscriptions	Automatic
Permanent print head	Standard
Ultra high capacity ink tank	Up to 100,000 imprints
Postal rate change updates	Via download
Low ink email alerts	Standard
View postage usage online (\$, pieces)	Standard

Options

Weighing platforms	10, 30, 70 lb.
Dynamic scale	Available
Differential weighing	Available
Barcode Reader (BCR)	Available
USB mass storage	Available
External USB report printer	Available
External label dispenser	Available
EMS (Enhanced Mailing and Shipping)	Available
ARM (Account Report Manager)	Available

System Dimensions

Length x Depth x Height

Mailing system with catch tray	58" x 25" x 14"
Mailing system with dynamic scale and catch tray	78" x 25" x 14"
Power conveyor stacker	40" x 14" x 12"
Adjustable control panel height	26" - 33"
Accounts/department	500, 1,000 - up to 10,000

We've Got You Covered

Quadient maintains a network of offices across the country to provide local customer support and trained technicians who are ready to assist you. You can be confident that when you need knowledgeable support or expert service, the point-of-contact will be a Quadient office in your area consisting of a team of local professionals.

About Quadient

Quadient is the driving force behind the world's most meaningful customer experiences. By focusing on four key solution areas including Customer Experience Management, Business Process Automation, Mail-related Solutions, and Parcel Locker Solutions, Quadient helps simplify the connection between people and what matters. Quadient supports hundreds of thousands of customers worldwide in their quest to create relevant, personalized connections and achieve customer experience excellence. Quadient is listed in compartment B of Euronext Paris (QDT) and belongs to the SBF 120 index.
