

PRACTICAL SMALL BUSINESS SOLUTIONS FOR SENDING LETTERS AND PARCELS

Compact. Cost-Effective. Effortless.

iX-3 Series

Quadient's iX-3 Series offers the most pragmatic choice for delivering effortless mailing and shipping operations. Don't let the compact design fool you — the iX-3 is extremely powerful. When powered by S.M.A.R.T.® software, the iX-3 creates a consolidated and organized epicentre that streamlines workflows by combining essential operations into a user-friendly, all-in-one solution.

Quadient and Bullfrog Power®

Quadient is proud to partner with Bullfrog Power, Canada's leading green energy provider. Bullfrog Power provides green energy for all Quadient's Canadian facilities, which reduces each facilities environmental impact and supports the growth of green energy projects in Canada. Bullfrog Power's generators inject 100% green electricity back into the grid to match the power consumption of all iX-Series postage systems installed at new customer locations. Postage meters powered by green energy are a first for the industry in Canada and demonstrate Quadient's commitment to sustainability efforts.

Revolutionize Mail Management with S.M.A.R.T.

S.M.A.R.T. provides the ultimate Shipping, Mailing, Accounting, Reporting and Tracking experience – all from a single dashboard! This solution combines leading edge technologies to improve customer interactions and business processes. A consistent look and feel across each element provides familiarity to users, making navigation simple and intuitive. S.M.A.R.T. fuels stronger business communications with your internal and external customers by providing detailed shipping and tracking notifications, robust accounting to consolidate mail and shipping spending, and extensive reporting options, to name a few.

SHIPPING

This best-in-class powerhouse shipping application provides the flexibility to print Canada Post approved shipping labels from any office or thermal label printer quickly and easily. Preparing shipments online provides access to Canada Post's Solutions for Small Business program, which is free to join and offers up to 40% off Canada Post shipping services.

- View rates and services from one screen. S.M.A.R.T. will automatically **compare carriers** to identify the lowest cost or fastest delivery method of processing parcels, saving time and money.
- **Create custom package types** and favorites for frequently used boxes or envelopes to print a shipping label.
- **Automatically verify** that your destination address is up to date. Our address verification service is included at no additional cost.
- Assign printing permissions to users working in the office, at a different location or working from home with **Desktop Print**. Desktop printing provides flexibility within an organization while decreasing mail centre workload.
- Establish potential cost saving opportunities, decrease the number of work steps to process items, and better organize shipments when using **multi-package shipments**.

MAILING

Take full control of your iX-3 and create an unparalleled user experience. S.M.A.R.T. takes all the features from a traditional mailing system control panel and applies them to an all-in-one interactive solution.

- Find and select **discounted Canada Post letter mail services**.
- Print discounted postage and seal envelopes at up to **45 letters per minute**.
- **Create, modify and select** system settings, job memories, weighing/sealing modes, or customize graphics.
- **Monitor** ink levels, number of pieces processed, available postage funds, and add postage funds in real time.

ACCOUNTING

S.M.A.R.T. provides users the ability to set up specific accounts, allowing for greater level of reporting granularity.

- **Postal account reporting** tracks spending, providing the tools you need to stay on top of expenses.
- **Automatically assign postage spend data** to up to 3,000 unique accounts with **Scan and Drop** account allocation.
- **Assign accounts to desktop users** to automatically allocate spending activity for every shipment completed inside and outside the office.

REPORTING

Easily produce informative reports and color graphs that give you the details you need.

- **Generate postage expense reports** by service, carrier, account/department, operator, pieces processed, postage spent, predefined or custom time periods – and more!
- **Visualize reports** using colorful charts or graphs and export your data in a variety of formats.

TRACKING

Always know when and where your items are with S.M.A.R.T. software.

- Free confirmation of delivery on all parcels at no extra cost. All tracked services IDs are stored for **up to 13 months**.
- Keep your customers informed by providing **delivery email alerts** each step of the way.
- **Easily search** for specific transactions, reprint labels and documents, cancel shipments, make manual adjustments or request refunds.
- **View transaction details** including tracking number, sent date, service, carrier, carrier charges, shipment surcharges, ship from and ship to addresses.
- Obtain **consolidated views** of your mail centre's activities to manage mailing and shipping operations.
