

Guarantee mail piece integrity in the cloud

For mailings containing sensitive or personally identifiable information such as account statements or contracts, compliance rules such as PIPEDA and PIPA are ever-changing. You must ensure that the right document is sent to the right person every time. And you must be able to prove it.

Failure to comply can negatively impact your brand reputation and may result in large fines, penalties or even lawsuits. The only way to avoid these risks is with a closed-loop document integrity solution.

docsecure by Quadiant is the only fully cloud-based, closed-loop solution that tracks document integrity at every step. It provides the highest level of mail piece integrity by tracking, recording, and reporting on the entire folding and inserting process, from start to finish.

BACKED BY THE EXPERTS

Gartner, Forrester, and Aspire

EXPERIENCE

A rich history of world-class leadership

PROVEN RESULTS

97% customer satisfaction rate

EXPERTISE

8 billion personalised experiences annually

Reference historical job reports up to 24 months

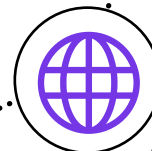

Track and prove mail piece integrity and security

Closed-loop verification

Accessible from any web browser

DOCSECURE SUPPORTS ORGANISATIONS COMPLY TO PIPEDA AND PIPA REQUIREMENTS

Key capabilities

End-to-end tracking and reporting

With docsecure, there is no need for manual verification to ensure the insertion is correct. It tracks each job in terms of integrity (all the documents are in the right envelope) and entirety (the entire job is complete).

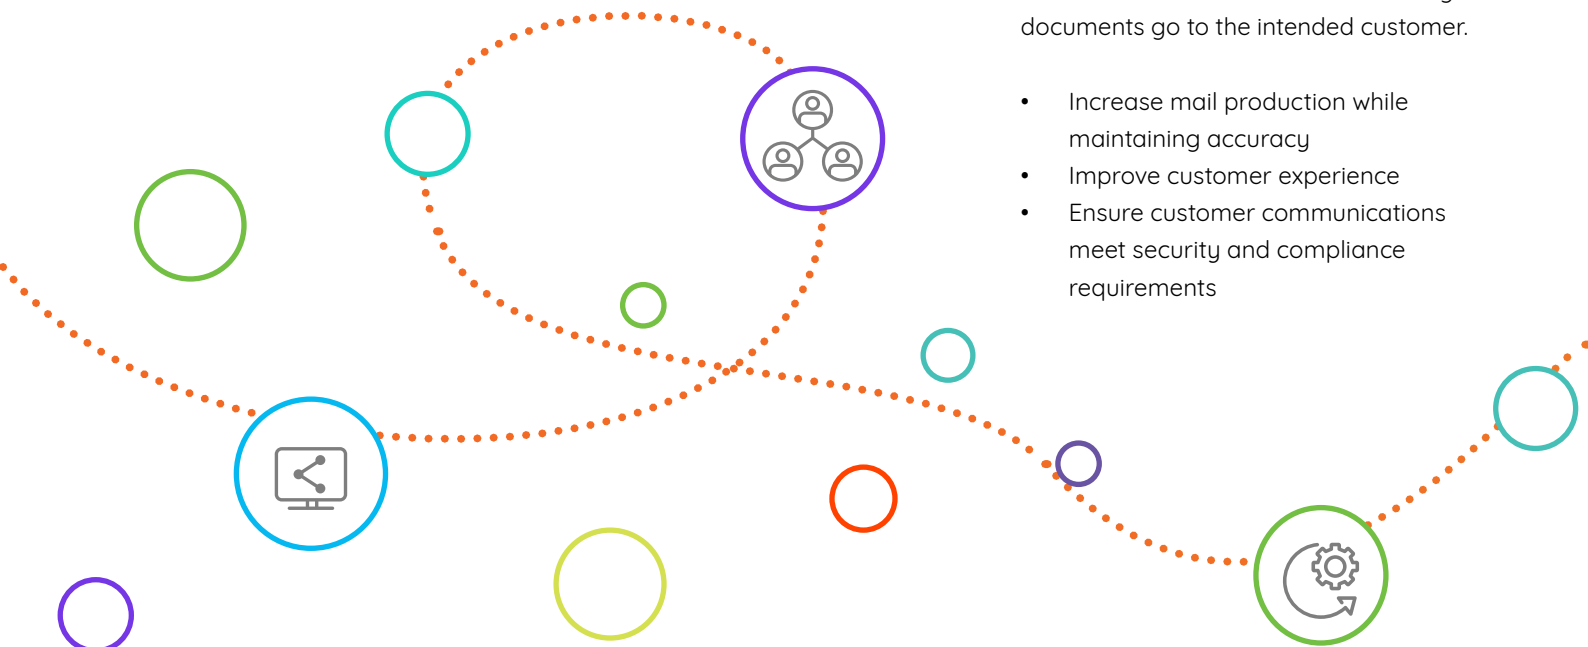

The real-time production dashboard provides deep visibility into every job, including:

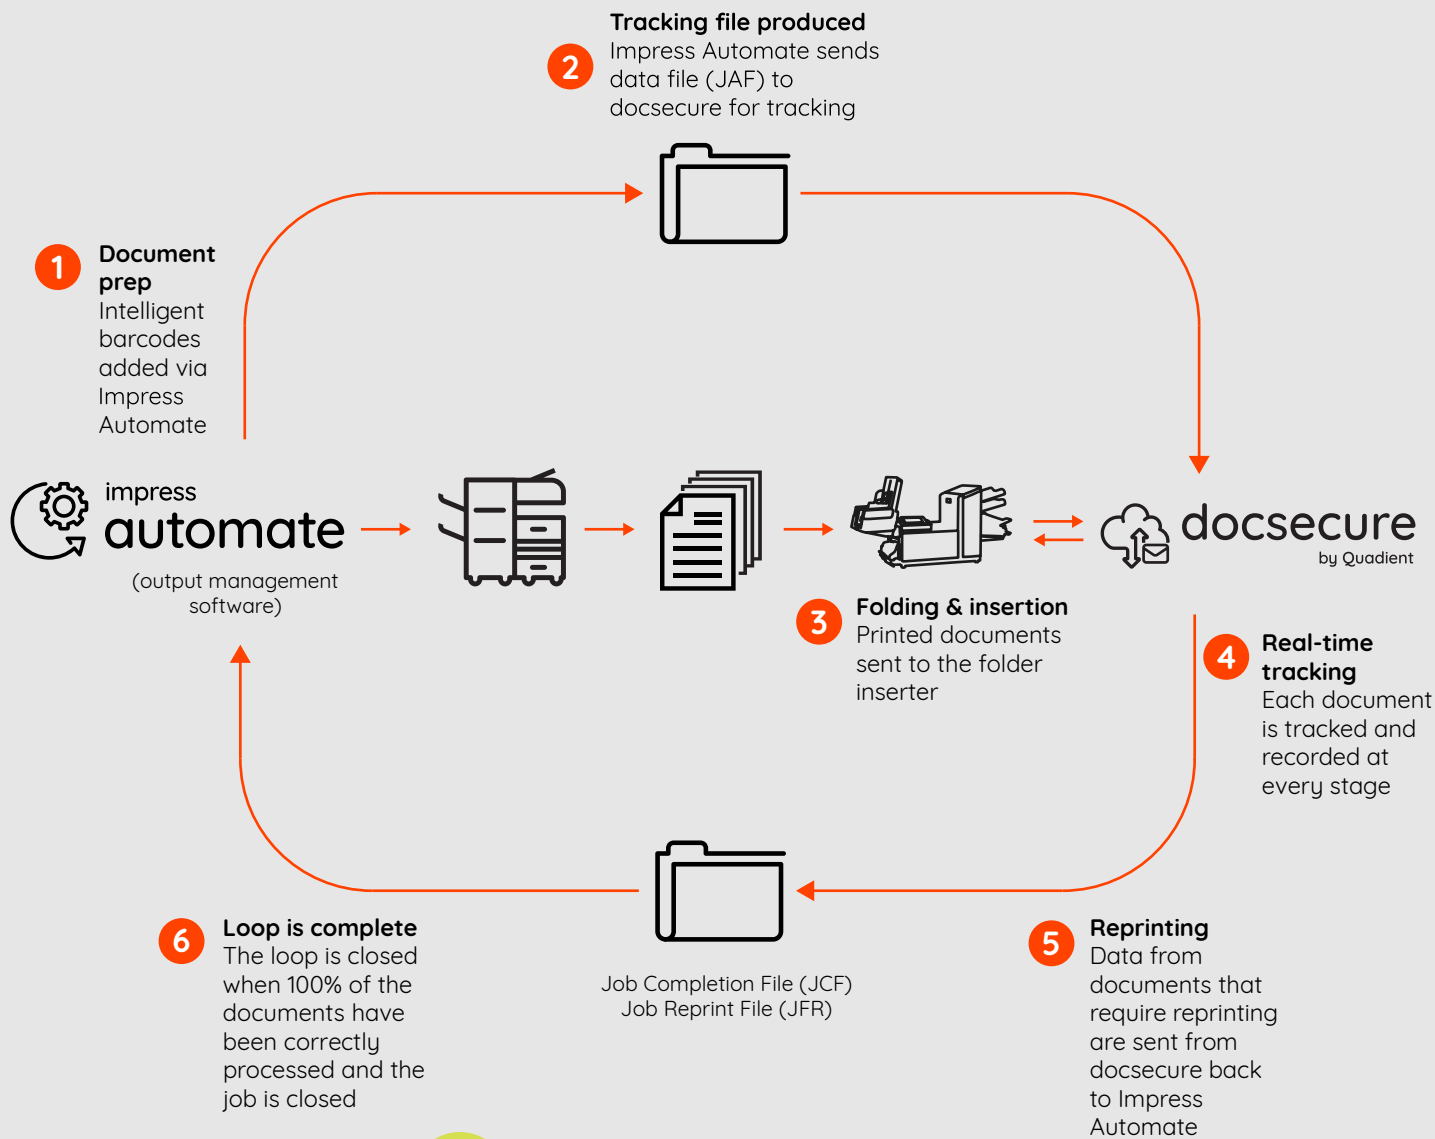

- Detailed reports (job, job details, analysis)
- Catalog output files for audit trail (csv, pdf)

Easy integration with Impress Automate

Impress Automate is an intelligent outbound document automation solution that helps produce actionable, personalised and secure communications. When paired with a folder inserter, Impress Automate assigns an intelligent bar code to each document to group, sort, or collate materials, based on your pre-defined business rules to ensure the right documents go to the intended customer.

- Increase mail production while maintaining accuracy
- Improve customer experience
- Ensure customer communications meet security and compliance requirements

Compatible with a range of Quadient Folder Inserters

By pairing your folder inserters with document automation software your business will intelligently connect with customers. docsecure is compatible with the following folder inserter models:

- DS-77iQ

Secure mail communications

Thousands of companies trust Quadient to ensure communication security and automate the mail preparation process. Quadient's easy-to-use mailing software and hardware helps companies of all sizes simplify, automate, and modernise document preparation, ensure security, reduce compliance risk, and improve the mail outreach process.

Quadient removes the frustration of outreach preparation and delivery, so you are able to ensure brand continuity, and expedite your most critical business communications.

- Ensure the right communication arrives to the right recipient
- Reduce compliance risk
- Automate mail preparation
- Improve employee satisfaction
