

DS-95i

Folder Inserter

Your Interactive Mail Assembly Specialist

Mail Assembly Made Easy

An intuitive Folder Inserter to Automate Mail Assembly

When it comes to getting a job done, thriving businesses count on reliable tools that add value and streamline business processes. Quadient's DS-95i folder inserter delivers flexible, dependable and easy-to-use mail assembly. Ideally suited for businesses that need to assemble a wide variety of document sizes and types, the DS-95i handles them all with ease. Thanks to its best-in-class scanning technology, the DS-95i can read any type of coding to automate variable page jobs to ensure the right documents are always sent to the right person. Add Quadient's Output Management or AIMS-500 software to optimize document creation and guaranty the accuracy of your mail assembly process, everytime.

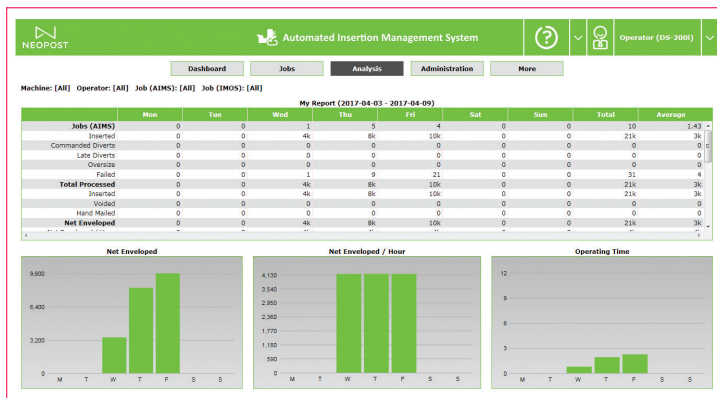

Automated Document Preparation

Quadient's optional Output Management Software (OMS) can add significant value by enhancing the formatting, personalization, grouping, printing, barcoding, and addressing of your documents.

OMS and AIMS work seamlessly together with the DS-95i operating system to accurately assemble personalized mail runs and jobs with a varying quantity of documents per set. Merge different documents for the same customer into one envelope to save money on postal costs.

Visibility and Integrity

AIMS-500 software enhances the DS-95i's built-in document security to deliver end-to-end assembly verification. AIMS-500 confirms that every piece of mail in your job has been assembled correctly, providing complete closed loop, piece-level content accuracy.

Document Control and Security

Utilizing full-page Contact Image Sensor (CIS) scanning technology, the DS-95i can read any type of coding including optical mark, optical character, 1D and 2D data matrix barcodes. Because the scanner reads the entire area of a page, codes can be printed anywhere on the document and can be read horizontally or vertically allowing you to control printing accuracy and inserts can be selected based on customer profile.

Business Impact

- 
Revenue Growth
 Maximize opportunities to better communicate with customers
- 
Risk Mitigation
 Ensure that every recipient receives the right mail piece
- 
Customer Engagement
 Create your own professional looking mail pieces
- 
Expense Control
 Maximize productivity thanks to speed and reliability

DS-95i

1. High-Capacity Vertical Stacker

Preserves printing order and holds up to 500 finished mail pieces so operators spend less time unloading.

2. 10" Touch Screen Display

Wizard-based navigation makes it easy for anyone to select and run a job.

3. Cascade Feeder Linking

Continuous operation is achieved by linking feeders. If one feeder runs empty, another one automatically takes over, allowing you to refill on-the-fly as needed until your job is complete.

4. Envelope Hopper

325-envelope capacity with on-the-fly reloading.

5. Load'n Go Automatic Job Set-Up

Start new jobs simply by loading the feeding trays and pressing start.

Simple and Intuitive

There's no need for trained operators thanks to the Load'n Go automatic job set-up. Simply load envelopes and documents and press start. The DS-95i will adjust all settings automatically and save them to the memory for instant recall.

Intelligent and Productive

To avoid stoppages and maximize efficiency, the IntelliDeck can automatically divert document sets which are too large to process (more than 10 pages) or sets requiring special handling, all while the system is still running.

Specifications

Speed	Up to 4,300 / hour
Load'n Go automatic job set-up	Standard
FlexFeed multi-format feeder	Standard
10" adjustable colour touch screen	Standard
Multiple sheet feeding	Standard
Cascade feeding	Standard
Number of feeders	Up to 7
Job memory	50
Manual feeding	Standard
Accumulate before folding	Standard
Tip to tip sealing	Standard
Document feeder capacity sheets	Up to 725
MaxiFeeder capacity	1,200 sheets- optional
Envelope feeder capacity	325
Vertical envelope stacker	Up to 500
Document height	3.5" - 14"
Document width	5.1" x 9"
Document weight	16 - 66lbs
Envelope length	3.5" - 6"
Envelope width	6" x 9"
Maximum Set thickness	0.01"
Fold types	Letter, z-fold, single, double parallel, no fold 

Connectivity

LAN embedded	Standard
Wi-Fi embedded	Standard
RemoteAssistance	Standard
Remote Diagnostics	Standard
Mail'n Ship Station Interface	Optional

Mail Assembly Accuracy

Secure'n Feed doubles detection	Standard
Document loading detecton	Standard
1D and 2D Barcode reader	Standard
Optical Mark Recognition (OMR) reader	Standard
Optical Character Recognition (OCR) reader	Standard
AIMS-500 Mail Assembly Verification Software	Optional
Output Management Software (OMS)	Optional

Integrated Service and Support

When it comes to operating and maintaining the productivity tools you've invested in, Quadiant is right by your side to keep your communications flowing at a price you can afford.

DocuCare is a selection of service packages for Quadiant Mail Assembly Systems. Each package is designed to meet a service standard that you're comfortable with and give you peace of mind knowing that Quadiant is the right partner for your business.
