Mail'n Ship Station

# The Leader in High Volume Mailing

# Mailing, Shipping And Accounting In One Powerful System

# Meet Quadient's **IS-6000** high-production, web enabled **Mail'n Ship Station**.

The IS-6000 was designed to meet the demanding needs of commercial volume letter and parcel processing environments. Its intuitive features, like the i-Weigh Dynamic Scale, dramatically reduce mail processing time and simplify operations. The built-in four-point detection system is patented to automatically weigh and measure the full dimensions of your mail, accurately applying postage at speeds of up to 150 letters per minute.

The IS-6000 is powered by RunMyMail software, creating an unparalleled user experience. All the features from the Mail'n Ship Station's control panel are accessed from a PC, making it easier and faster to get the job done.

- Find and select Canada Post lettermail services
- View ink levels, postage account balance and add postage funds to your meter
- Set-up, preview and modify system settings
- Select and change weighing modes and accounting departments
- Add custom graphics to your envelopes
- Start and stop mail processing

#### Quadient and Bullfrog Power®

Quadient is proud to be partnered with Bullfrog Power, Canada's leading green energy provider.

By choosing Bullfrog Power's green energy for all our Canadian facilities, Quadient is reducing its environmental impact and supporting the growth of green energy projects in Canada.

This multi-year partnership will also see Bullfrog Power's generators inject 100% green electricity back into the grid to match the power consumption of all Quadient Mail'n Ship Stations installed at new customer locations.

Mail'n Ship Stations powered by green energy are a first for the industry in Canada and demonstrate Quadient's commitment to include all stakeholders in its sustainability efforts.
